

EPS15/99

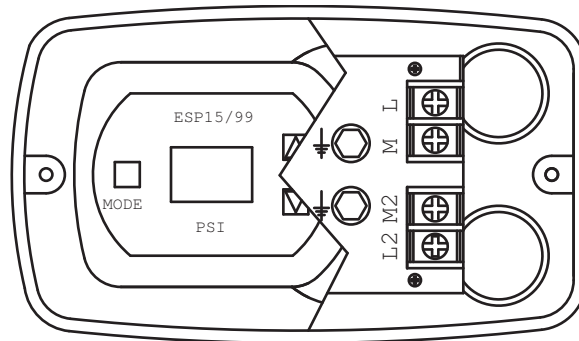

Electronic Pressure Switch

Typical installation

230V V Only (16 amp max)

Features

- * Simple push button adjustments
- * Digital display for accurate pressure adjustment and monitoring
- * Replaces existing mechanical switches
- * Protection faults include low pressure, high pressure, and excessive cycle
- * Cut in as low as 15 psi and cut out as high as 99 psi
- * Differential pressure ranges from 10 to 50 psi
- * No additional pressure gauge needed as system pressure is always displayed
- * Available in 220V model for up to 2HP. HP unlimited with relay
- * Gasketed enclosure assures dust and ant proof seal with the correct conduit connections

Operating Parameters Model EPS15/99 230V

Control voltage	190-264 vac (230 volt range)
Frequency	50 to 60 hz
Output rating	16 amps at 240 vac
Horse power ranges (with relay)	1/3 to 2HP Unlimited
Power usage	4 watts
Max Pressure	100 psi

Ambient operating temp	35 to 131 degrees F
Dimensions	4.524 X 3.524 X 1.750 (LWH)
